FROM: [REDACTED]
Director of Communications

SUBJECT: New Building Communications Program [REDACTED]

25X1

1. The Office of Communications has established the New Building Communications Program to address the communications requirements for the Headquarters complex. Your Office has participated in the planning for this program with our New Building Communications Program Office (BPO). This work led to the definition of seven major projects necessary to provide the communications services for the new building. [REDACTED]

2. The success of these projects depends heavily on the support which is provided by your Office. In order to ensure that our people jointly understand the tasks to be accomplished, BPO has prepared Project Plans on each of the projects. My Engineering Division will be forwarding these to the appropriate divisions in your Office for coordination. Since BPO has worked with your people in defining these projects, I don't expect there will be any surprises in the plans. [REDACTED]
